## CENTRAL VACUUM UNIT W/FILTER

Efficient Dust  
Recovery

Advanced Filter  
Cleaning

Automatic Box  
Level Sensor

Industrial Vacuum Unit, complete with Diesel Engine (STAGE V for EU markets only) usable for heavy purpose, transportable by fork lift, overhead crane or installed on a trailer.

PTC360's dust recovery system features a 500-liter capacity box. Cleaning is done through a recycle system with pre-separator filters. This unit requires connection to a pre-separator with a cyclonic head. The air filtering system includes polyester felt sleeves, safety cartridges, and an automatic filter cleaning system. The machine stops when the dust box is full.
