

BL-22

CENTRAL VACUUM UNIT W/FILTER BL 22 – BL 30 AV

**Portable
Versatility**

**Efficient Material
Handling**

ATEX Certified

The PTC360 mobile suction-filtering unit offers easy transportability and features two independent compartments. The first compartment is soundproofed and houses a high-performance electric motor, pump, and safety cartridges. The second compartment includes filter chambers, a dust compartment, and a counter-current cleaning system. Experience efficient and portable suction-filtering with PTC360.

PTC360 AUTOMATIC TIMED CLEANING SYSTEM:

- Ensures optimal filtration performance
- Activates cleaning valves inside independent chambers
- Introduces external air filtered by metal cartridges into filtering sleeves
- Maintains high filtration yields
- Valves operated by a supplied compressor

PTC360 HIGH POWER VACUUM LINE:

- Operates on a three-phase V 400 power supply (standard)
- Custom power supply options available upon request
- Combine with PR-V or PR-F pre-separator for enhanced efficiency

CERTIFIED TO MEET EUROPEAN DIRECTIVE ATEX 2014/34/EU.

Specification :

		BL22	BL30 AV
Motor Power	KW - HP	22 - 30	30 - 40
Electric Connection	V - Hz	400/50	400/50
Max. Vacuum	mmH ₂ O	5000	7000
Max Air Flow.	m ³ /h	1200	1500
Main Filter Surf.	m ²	12	12
Safety Filter Surf.	m ²	4	4
Dimensions	Cm.	200x135x200	
Weight	Kg	1600	1700
