

Seperator PR-F

PRE-SEPARATOR
WITH CYCLONIC
HEAD

*Material
Seperation*

Easy Cleaning

*Versatile
Connection Options*

Experience superior material separation with our PR-F Pre-Separator. Designed with high efficiency and convenient features, it enhances the performance of industrial vacuums for handling large volumes of material and powders.

- **Highly Efficient Cyclonic Head with 4mm thick steel for effective material separation.**
- **45° Inclined Hopper for smooth material sliding and improved flow.**
- **Dust Level Probe with 10m cable for signaling dust overflow and automatic shutdown.**
- **Lower Unloading Door with Manual Control and Safety Lock for easy material disposal.**
- **Versatile Connection Flanges for connecting to various diameter fittings and industrial vacuums.**
- **Easy Mobility with Forklift Truck or Overhead Crane using lifting pockets and hooks.**
