## PRE-SEPARATOR WITH CYCLONIC HEAD

*High Efficiency  
Seperation*

*Removable  
Cyclonic Head*

*Versatile Discharge  
Options*

Enhance your material separation efficiency with our PR-V Pre-Separator. Designed for high-volume material handling, it offers efficient separation and convenient features for smooth operations.

**Efficient Cyclonic Head:** Removable and made of durable steel for effective material separation.

**Easy Discharge:** Butterfly valve for convenient and controlled release of sucked material.

**Dust Level Probe:** Automatically shuts off the Industrial Vacuum in case of dust overflow.

**Versatile Connection:** Flanges allow for easy connection to different diameter fittings and vacuums.

**Convenient Mobility:** Lower lifting pockets and upper hooks enable easy movement with a forklift or crane.

## Specification :

		PR-V 1	PR-V 1,5	PR-V 2
Capacity	m <sup>3</sup>	1	1,5	2
Air Inlet	Ø mm	80 - 100	80 - 100	80 - 100
Air Outlet	Ø mm	80 - 125	80 - 125	80 - 125
Discharge Size	Ø mm	250	250	250
Level Probe		Si	Si	Si
Empty weight	kg	420	460	540
Max gross weight	kg	2500	3500	4500
Unloading Control		Manual	Manual	Manual
Sizes	cm.	130x130x165	130x130x200	130x130x240
